97,000
sexual assaults
per year

The first six weeks for a college freshman are critical to their academic success. During these early days of college many students initiate heavy drinking. Heavy drinking has the potential to interfere with a student's transition to college. It can be a difficult transition, and about 1/3 of first-year students fail to enroll for their second year.

What parents can do:

- Inquire about campus alcohol policies
- Text or call their sons and daughters frequently
- Ask about roommates and living arrangements
- Discuss penalties for underage drinking
- Discuss how alcohol use can lead to sexual assault, violence and academic failure

You can help keep kids safe from alcohol and drugs. Learn how.
